

**Know when to
stay in your lane.
And when to
leave it.**

**Make DE
CRASH Free!**

OWN THE DRIVE. MOVE OVER.

ArriveAliveDE.com

**The safest
move is to
make space.**

Moving over isn't just a courtesy — it's the law. First responders and emergency workers show up for you. When you see them, give them room. If you can't change lanes, slowing down could save a life.

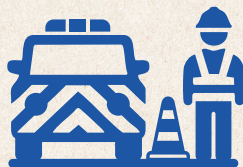

How to move over safely:

**Move over to
a nonadjacent
lane.**

**Watch for
lights, hazards, or
stopped vehicles.**

**Give room to
anyone working
on the roadside.**

**If you can't, reduce your speed
by 20 mph if the speed limit is
50 mph or more.**

**Make DE
CRASH Free!**

OWN THE DRIVE. MOVE OVER.
